- 8.3. The Client can open and close a position via its Company's Trading Platform and add or modify orders by placing Buy Limit, Buy Stop, Sell Limit, Sell Stop, Stop Loss and/or Take Profit on any Financial Instrument.
- 8.4. The Client's orders are executed at the Bid and Ask prices that are offered by the Company, derived by its Liquidity Provider(s). The Client places His market request at the prices He sees on the Trading Platform and the execution process is initiated. Due to the high volatility of the market as well as the internet connectivity between the Trading Platform and the server, the prices requested by the Client and the current market price may change, during this process.
- 8.5. - 8.8. This action is made in order to (i) account for the diluting or concentrating effect necessary to preserve the economic equivalent of the rights and obligations of the parties under that Transaction immediately prior to that Corporate Event, and/or (ii) replicate the effect of the Corporate Event upon someone with an interest in the relevant underlying security, to be effective from the date determined by the Company.
- 8.9. The events to which Clause 8.8 refers to are any of the following, by the declaration of the issuer of a security;

Terms and Conditions

- a) a subdivision, consolidation or reclassification of shares, a share buy-back or cancellation, or a free distribution of bonus shares to existing shareholders, capitalisation or share split or reverse share split or similar event;
 - b) a distribution to existing holders of the underlying shares or additional shares, other share capital or securities, granting the right to payment of dividends and/or proceeds from the liquidation of the issuer equally proportionate to such payments to holders of the underlying shares, securities, or warrants granting the right to receive or purchase shares for less than the current market price per share;
 - c) any other event regarding shares analogous to any of the above events or otherwise having a diluting or concentrating effect on the market value of shares;
 - d) any event analogous to any of the above events or otherwise having a diluting or concentrating effect on the market value of any security not based on shares;
 - e) any event that is caused by a merger offer made regarding the company of the underlying asset.
- 8.10.** If any underlying asset of the Financial Instrument becomes subject to a specific risk resulting in a predicted fall in value, the Company reserves the right to restrict short selling or even withdraw the specific Financial Instrument from the Company's Trading Platform.
- 8.11.** Determination of any adjustment or amendment to the opening/closing price, size, value and/or quantity of the Transaction (and/or the level or size of any order) shall be at the Company's sole discretion and shall be conclusive and binding upon the Client. The Company shall inform the Client of any adjustment or amendment via its internal mail as soon as is reasonably practicable and not necessarily before the amendment is made.
- 8.12.** In the case where the Client has any open positions on a day where a Corporate Action is scheduled (such as an ex-dividend day, share split, etc.) for any of the underlying assets of the Financial Instruments, most generally on, but not limited to Indices CFDs or Equity CFDs, the Company has the right to:
- a) adjust Swap Rates/Financing Fees on that particular Financial Instrument;
 - b) charge extra commission fees on that particular Financial Instrument;
 - c) close such positions at the last price of the previous trading day and open the equivalent volume of the underlying Financial Instrument at the first available price on the ex-dividend day. In this case, the Company will do its best to inform the Client via the internal mail of the said adjustment and no Client consent will be required;
 - d) reverse any profits derived if it suspects that a Client is deliberately attempting to take advantage of any such Corporate Actions affecting the price movement of the underlying assets.
- 8.13.** The Company shall not be liable for any loss, expense, cost or liability (including consequential loss) suffered or incurred by the Client as a result of instructions being given, or any other communication being made via the internet or other electronic media. The Client will be solely responsible for all orders, and for the accuracy of all information, sent via such electronic media. The Company shall not be held responsible for delays or inaccuracies in the transmission of any instruction, information or the execution of orders due to any cause beyond the reasonable control of the Company.
- 8.14.** The Company shall not be liable for any delays or other errors caused during the transmission of the Client's order via the Company's Trading Platforms. Terms and Conditions

between the Client's terminal or any other Trading Platform offered by the Company and the Company's server.

- 8.15.** All Client orders (Market, Buy Limit, Buy Stop, Sell Limit, Sell Stop, Stop Loss and/or Take Profit), are executed at the available current market prices. However, in the case of any communication or technical failure as well as any incorrect reflection on the quotes feed (i.e. prices to freeze/stop updating or price spikes), the Company reserves the right not to execute an order or in case in which the order was executed to change the opening and/or closing price of a particular order or to cancel the said executed order.
- 8.16.** The Client accepts and acknowledges that the Company is not responsible in case a Client's order is delayed or not even executed at the price requested (i.e. prevailing market price) since the quotes are derived from the Liquidity Provider(s) using a bridge technology; market prices usually moves fast during volatile periods.
- 8.17.** Considering the levels of volatility affecting both price and volume, the Company is constantly seeking to provide Client orders with the best execution reasonably possible under the prevailing market conditions. Client's orders (Market, Buy Limit, Buy Stop, Sell Limit, Sell Stop, Stop Loss and/or Take Profit) are executed at the available Market price. However, during periods of volatile market conditions, during news announcements, on market opening gaps (trading session starts), or on possible gaps where the underlying instrument has been suspended or restricted on a particular market, Client's orders (Buy Limit, Buy Stop, Sell Limit, Sell Stop, Stop Loss and/or Take Profit) are executed at the next available Market price. While this price might have significant deviation from the Client's declared price, the end result can be either to the Client's benefit (positive slippage) or to the Client's detriment (negative slippage). Different Execution policy might apply to prevent abuse when a trading strategy is deemed as abusive, aiming towards potential riskless profit.
- 8.18.** Considering the volume of the Client's order and the current market conditions, the Company has the right to proceed with partial execution.
- 8.19.** The overnight Swap Rate/Financing Fee is mainly dependent on the level of interest rates as well as the Company's fee for having an open position overnight. The Company has the discretion to change the level of the Swap Rate on each Financial Instrument at any given time and the Client acknowledges that He will be informed by the Company's Website. The Client further acknowledges that He is responsible for reviewing the "Contract Specifications" (located on the 'Instruments' page) of the Company's Website for being updated on the level of Swap Rate prior to placing any order with the Company.
- 8.20.** The Company reserves the right to disable and/or enable 'Swap Free' trading for Client's "Trading Account" at any given time. This can occur at times where the Client abuses the Company's trading conditions/systems or where the Client's trading strategy imposes a threat to the Company's trading facility or where the Company deems necessary in order to protect the smooth operation of its trading facility.
- 8.21.** The Company reserves the right to decline an 'Islamic' account request without providing any explanation/justification to the Client.
- 8.22.** The Client further acknowledges that Swap Free applies for 10 calendar days only. Therefore, Swap Free accounts holding a position open for more than 10 calendar days, will be credited or debited Swap accordingly from the 11th calendar day.

The Client further acknowledges that He is responsible for reviewing the Contract Specifications (located on the 'Instruments' page) of the Company's Website for being updated on the level of Swap Rate prior to placing any order with the Company.
- 8.24.** The Client can set His account leverage level within the 'Client Area' of the Company's Website. The Client acknowledges that the Company has the discretion to change the Client's Trading Account leverage at any given time, without the Client's consent, either on a permanent basis or for a limited period of time. The Client also acknowledges that the Company has also the right to change the Client's leverage to match the one provided by the Liquidity Provider(s). Such an event will be disclosed to the Client by the Company via its internal mail or by email.
- 8.25.** By accepting this Agreement, the Client has read, understood and accepted the 'Leverage or Margin Requirement' levels found on the Company's Website. Further to which the Client accepts 'Leverage or Margin Requirement' Levels may be changed by the Company when they see fit to do so, in cases such as, but not limited to, an individual Client's deposit amount as well as on the exposure on a single or multiple instruments. It is the Client's responsibility to visit the Company's Website and review the 'Leverage or Margin Requirement' levels during the time He is dealing with the Company as well as prior of placing any orders to the Company.
- 8.26.** The Company bears no responsibility when the Client uses additional functionalities / plug-ins such as Expert Adviser or Trailing Stop since they depend on the Client terminal. In case where the Company suspects that a Client is using additional functionalities /plug-ins where it affects the reliability and/or smooth operation and/or orderly of the Company's Trading Platform the Company has the right to activate any clause under section 26, including clause 26.4.
- 8.27.** The Company shall have the right to start closing Client's positions starting from the most unprofitable, when the "Margin Level" is less than 100%. In the case where the Margin Level is equal to or less than 50% then Client's positions are automatically closed, starting from the most unprofitable, at the market price. The Client also acknowledges that the Company has the right to change the Client's stop out Margin Level to match the one provided by the Liquidity Provider(s). Such an event will be disclosed to the Client by the Company via its internal mail or by email.
- 8.28.** In case where a Client is trading in a way that aims to take advantage of price disparities resulting from rare/occasional price latencies with the purpose of benefiting from a possible pricing arbitrage to the Company's detriment, either by using additional functionalities/plug-ins (i.e. Expert Adviser, etc.) or by any other means, then the Company has the right to activate any clause under section 26, including clause 26.4.
